Asian Youth Forum
ORIGINS

In our program, we hope to assemble accomplished youth across Asia and foster a platform for youth and regional exchange.

Hailing from 15 different universities across Taiwan, we are students who are highly interested in Asia and regional-related issues and have been committed towards turning our vision into action.

The Asian Youth Forum was born out of the cooperation between Taiwan's National Tsing Hua University (NTHU) Leadership Program and Fair Winds Foundation as well as the exchange and integration of diverse perspectives.

Asian Youth Forum
